Kittitas County Fire Protection District No. 8 October 6, 2014

ABOUT THE AUDIT

This report contains the results of our independent accountability audit of Kittitas County Fire Protection District No. 8 from January 1, 2010 through December 31, 2013.

The objective of our audit was to evaluate the adequacy of the District's internal controls to safeguard public resources and the District's compliance with state law and its own policies. In keeping with general auditing practices, we did not review every aspect of the District's internal controls and compliance. Instead, our review focused on areas representing the highest risk of misappropriation, misuse or noncompliance.

Our report is addressed to the governing body and management of the District. However, this report is a matter of public record and its distribution is not limited.

RESULTS

In the areas we examined, the District's internal controls were adequate to safeguard public assets. The District also complied with state laws and its own policies in the areas we examined.

However, we noted certain matters that we communicated to the District. We appreciate the District's commitment to resolving those matters.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments as well as [fraud](#), state [whistleblower](#) and [citizen hotline](#) investigations.

The results of our work are widely distributed through a variety of reports, which are available on our [website](#) and through our free, electronic [subscription](#) service.

We take our role as partners in accountability seriously, and provide training and technical assistance to governments, and have an extensive quality assurance program.
