OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

**Selah School District No. 119
Yakima County
September 1, 2013 through August 31, 2014**

Board of Directors
Selah School District No. 119
Selah, Washington

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Selah School District No. 119, Yakima County, Washington, as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated May 22, 2015. As discussed in Note 1 to the financial statements, during the year ended August 31, 2014, the District implemented Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency,

or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of the District's compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB
CIRCULAR A-133**

**Selah School District No. 119
Yakima County
September 1, 2013 through August 31, 2014**

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
PROGRAM**

We have audited the compliance of Selah School District No. 119, Yakima County, Washington, with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2014. The District's major federal programs are identified in the accompanying Federal Summary.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program

occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2014.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program in order to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal

control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

PURPOSE OF THIS REPORT

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

Selah School District No. 119 Yakima County September 1, 2013 through August 31, 2014

Board of Directors
Selah School District No. 119
Selah, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Selah School District No. 119, Yakima County, Washington, as of and for the year ended August 31, 2014, and the related notes to the financial statements, which collectively comprise the District's financial statements, as listed on page 14.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of Washington State statutes and the *Accounting Manual for Public School Districts in the State of Washington* (Accounting Manual) described in Note 1. This includes determining that the basis of accounting is acceptable for the presentation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's

judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant account estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Unmodified Opinion on Regulatory Basis of Accounting (Accounting Manual)

As described in Note 1, the District has prepared these financial statements to meet the financial reporting requirements of Washington State statutes using accounting practices prescribed by the Accounting Manual. Those accounting practices differ from accounting principles generally accepted in the United States of America (GAAP). The difference in these accounting practices is also described in Note 1.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Selah School District No. 119, as of August 31, 2014, and the changes in financial position thereof for the year then ended in accordance with the basis of accounting described in Note 1.

Unmodified Opinions on the Governmental and Fiduciary Funds Based on U.S. GAAP

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the General, ASB, Debt Service, Capital Project, Transportation Vehicle and Fiduciary funds as of August 31, 2014, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Matters of Emphasis

As discussed in Note 1 to the financial statements, the District adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Supplementary and Other Information

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The accompanying Schedules of Long-Term Liabilities are also presented for purposes of additional analysis, as required by the prescribed Accounting Manual. These schedules are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated May 22, 2015 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Selah School District #119
Notes to Financial Statements
September 1, 2013 through August 31, 2014

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Selah School District is a municipal corporation organized pursuant to Title 28A of the Revised Code of Washington (RCW) for the purpose of providing public school services to students in grades K–12. Oversight responsibility for the District's operations is vested with the independently elected board of directors. Management of the district is appointed by and is accountable to the board of directors. Fiscal responsibility, including budget authority and the power to set fees, levy property taxes, and issue debt consistent with provisions of state statutes, also rests with the board of directors.

The District presents governmental fund financial statements and related notes on the modified accrual basis of accounting in accordance with the *Accounting Manual for Public School Districts in the State of Washington*, issued jointly by the State Auditor's Office and the Superintendent of Public Instruction by the authority of RCW 43.09.200, RCW 28A.505.140, RCW 28A.505.010(1), and RCW 28A.505.020. This manual prescribes a financial reporting framework that differs from generally accepted accounting principles (GAAP) in the following manner:

- (1.) District-wide statements, as defined in GAAP, are not presented.
- (2.) Schedule of Long-Term Liabilities is presented as supplementary information
- (3.) Supplementary information required by GAAP is not presented.

Financial transactions of the District are reported in individual funds. Each fund uses a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures (or expenses) as appropriate. All funds are considered major funds. The various funds in the report are grouped into governmental (and fiduciary) funds as follows:

Governmental Funds

General Fund

This fund is used to account for all expendable financial resources, except those that are required to be accounted for in another fund. In keeping with the principle of as few funds as are necessary, activities such as food services, maintenance, data processing, printing, and student transportation are included in the General Fund.

Capital Projects Funds

These funds account for financial resources that are to be used for the construction or acquisition of major capital assets. There are two funds that are considered to be of the capital projects fund type: the Capital Projects Fund and the Transportation Vehicle Fund.

Capital Projects Fund. This fund is used to account for resources set aside for the acquisition and construction of major capital assets such as land and buildings.

Transportation Vehicle Fund. This fund is used to account for the purchase, major repair, rebuilding, and debt service expenditures that relate to pupil transportation equipment.

Debt Service Fund

This fund is used to account for the accumulation of resources for and the payment of matured general long-term debt principle and interest.

Special Revenue Funds

In Washington State, the only allowable special revenue fund for school districts is the Associated Student Body (ASB) Fund. This fund is accounted for in the District's financial statements as the financial resources legally belong to the District. As a special revenue fund, amounts within the ASB Fund may only be used for those purposes that relate to the operation for the Associated Student Body of the District.

Permanent Funds

These funds are used to report resources that are legally restricted such that only earnings, and not principal, may be expended. Amounts in the Permanent Fund may only be spent in support of the District's programs and may not be used to the benefit of any individual.

Fiduciary Funds

Fiduciary funds that include pension and other employee benefit trust funds, private-purpose trust funds, and agency funds, are used to account for assets that are held in trust by the District in a trustee and agency capacity.

Private-Purpose Trust Fund. This fund is used to account for resources legally held in trust by the District. The trust agreement details whether principal and interest may both be spent, or whether only interest may be spent. Money from a Private-Purpose Trust Fund may not be used to support the District's programs, and may be used to benefit individuals, private organizations, or other governments.

Measurement focus, basis of accounting and fund financial statement presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

Revenues are recognized as soon as they are measurable and available. Revenues are considered "measurable" if the amount of the transaction can be readily determined. Revenues are considered "available" when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after year-end. Property taxes receivable are measurable but not available and are, therefore, not accrued. Categorical

program claims and interdistrict billings are measurable and available and are, therefore, accrued.

Expenditures are recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for unmatured principal and interest on long-term debt which are recorded when due. Purchases of capital assets are expensed during the year of acquisition. For federal grants, the recognition of expenditures is dependent on the obligation date. (Obligation means a purchase order has been issued, contracts have been awarded, or goods and/or services have been received.)

Budget

Chapter 28A.505 RCW and Chapter 392-123 *Washington Administrative Code* (WAC) mandate school district budget policies and procedures. The board adopts annual appropriated budgets for all governmental funds. These budgets are appropriated at the fund level. The budget constitutes the legal authority for expenditures at that level. Appropriations lapse at the end of the fiscal period.

Budgets are adopted on the same modified accrual basis as used for financial reporting. Fund balance is budgeted as available resources and, under statute, may not be negative, unless the district enters into binding conditions with state oversight pursuant to RCW 28A.505.110.

The government's policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

The District receives state funding for specific categorical education-related programs. Amounts that are received for these programs that are not used in the current fiscal year may be carried forward into the subsequent fiscal year, where they may be used only for the same purpose as they were originally received. When the District has such carryover, those funds are expended before any amounts received in the current year are expended.

Additionally, the District has other restrictions placed on its financial resources. When expenditures are recorded for purposes for which a restriction or commitment of fund balance is available, those funds that are restricted or committed to the purpose are considered first before any unrestricted or unassigned amounts are expended.

The government's fund balance classifications policies and procedures.

The District classifies ending fund balance for its governmental funds into five categories.

Nonspendable Fund Balance. The amounts reported as Nonspendable are resources of the District that are not in spendable format. They are either non-liquid resources such as inventory or prepaid items, or the resources are legally or contractually required to be maintained intact.

Restricted Fund Balance. Amounts that are reported as Restricted are those resources of the District that have had a legal restriction placed on their use either from statute, WAC, or other legal requirements that are beyond the control of the board of directors. Restricted

fund balance includes anticipated recovery of revenues that have been received by are restricted as to their usage.

Committed Fund Balance. Amounts that are reported as Committed are those resources of the District that have had a limitation placed upon their usage by formal action of the District's board of directors. Commitments are made either through a formal adopted board resolution or are related to an established policy of the board. Commitments may only be changed when the resources are used for the intended purpose or the limitation is removed by a subsequent formal action of the board of directors.

Assigned Fund Balance. In the General Fund, amounts that are reported as Assigned are those resources that the District has set aside for specific purposes. These accounts reflect tentative management plans for future financial resource use such as the replacement of equipment or the assignment of resources for contingencies. Assignments reduce the amount reported as Unassigned Fund Balance, but may not reduce that balance below zero.

In other governmental funds, Assigned fund balance represents a positive ending spendable fund balance once all restrictions and commitments are considered. These resources are only available for expenditure in that fund and may not be used in any other fund without formal action by the District's board of directors and as allowed by statute.

The Board of Directors are the only persons who have the authority to create Assignments of fund balance.

Unassigned Fund Balance. In the General Fund, amounts that are reported as Unassigned are those net spendable resources of the District that are not otherwise Restricted, Committed, or Assigned, and may be used for any purpose within the General Fund.

In other governmental funds, Unassigned fund balance represents a deficit ending spendable fund balance once all restrictions and commitments are considered.

A negative Unassigned fund balance means that the legal restrictions and formal commitments of the District exceed its currently available resources.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The District also remits funds to Educational Service District No. 105 (ESD105) for payment of the district's unemployment compensation benefits which are a liability of the District. ESD105 is the trustee of a risk sharing unemployment compensation pool formed in 1988. Twenty school districts participate in the pool which is governed by a cooperative pool agreement. According to the cooperative pool agreement, only upon dissolution of the pool would the district be entitled to its equitable share of the assets remaining in the pool after all liabilities of each district have been paid. The Investments/Cash held by Trustee represents the district's share of assets currently held by ESD105 on behalf of the district before all liabilities of the pool have been paid. The funds held by ESD105 are not considered readily available to the district.

Inventory

Inventory is valued at cost using the first-in, first-out (FIFO) method (or weighted average). The consumption method of inventory is used, which charges inventory as an expenditure when it is consumed. A portion of fund balance, representing inventory, is considered Nonspendable. (Such reserves for inventory indicate that a portion of net current assets is set aside to replace or increase the inventory.) USDA commodity inventory consists of food donated by the United States Department of Agriculture. It is valued at the prices paid by the USDA for the commodities.

Accounting and Reporting Changes for 2013-2014

Effective for the 2013-2014 school year, the district implemented provision for GASB Statement No. 65 Items Previously Reported as Assets and Liabilities. As a result, deferred property taxes were reclassified from liabilities to deferred inflows of resources.

NOTE 2: CASH DEPOSITS WITH FINANCIAL INSTITUTIONS

The Yakima County Treasurer is the *ex officio* treasurer for the District and holds all accounts of the District. The District directs the County Treasurer to invest those financial resources of the District that the District has determined are not needed to meet the current financial obligations of the District.

All of the District's investments during the year and at year-end were insured or registered and held by the District or its agent in the District's name.

The District's investments as of August 31, 2014, are as follows:

	Number of Securities	Carrying Amount	Market Value
Certificates of Deposit or Other Time Deposits			
Repurchase Agreements			
Bankers' Acceptance			
Obligations of the U.S. Government or Its Subsidiary Corporations			
Investments Held by Broker-Dealers Under Reverse Repurchase Agreements: U.S. Government Securities U.S. Instrumentality Securities

County Treasurer's Investment Pool		9,775,183	9,775,183
Total Investments		9,775,183	9,775,183

NOTE 3: SIGNIFICANT CONTINGENT LIABILITIES

Litigation

The District has no known legal obligations that would materially impact the financial position of the District.

NOTE 4: SIGNIFICANT EFFECTS OF SUBSEQUENT EVENTS

There were no events after the balance sheet date that would have a material impact on the next or future fiscal years.

NOTE 5: ANNUAL PENSION COST AND NET PENSION OBLIGATIONS

General Information

Substantially all District full-time and qualifying part-time employees participate in one of the following three contributory, multi-employer, cost-sharing statewide retirement systems managed by the Washington State Department of Retirement Systems (DRS): Teachers' Retirement System (TRS), Public Employees' Retirement System (PERS) and school Employees' Retirement System (SERS). Participation in the programs was as follows:

Membership by retirement system program as of June 30, 2012:

<u>Program</u>	<u>Active Members</u>	<u>Inactive Vested Members</u>	<u>Retired Members</u>
TRS	65,357	9,545	42,918
PERS	150,590	30,515	82,242
SERS	51,558	10,920	7,651

Membership by retirement system program as of June 30, 2013:

<u>Program</u>	<u>Active Members</u>	<u>Inactive Vested Members</u>	<u>Retired Members</u>
TRS	65,935	9,823	44,220
PERS	150,706	31,047	85,328
SERS	52,295	11,588	9,079

Data is as of last actuarial valuation date of June 30, 2013.

Certificated public employees are members of TRS. Non-certificated public employees are members of PERS (if Plan 1) or SERS.

Plan 1 under the TRS and PERS programs are defined benefit pension plans whose members joined the system on or before September 30, 1977. Plan 1 members are eligible to retire with full benefits after five years of credited service and attainment of age 60, after 25 years of credited service and attainment of age 55, or after 30 years of credited service.

Plan 2 under the TRS or SERS programs are defined benefit pension plans whose members joined on or after October 1, 1977, but before June 30, 1996 or August 31, 2000, for TRS or SERS programs, respectively. Members of TRS and SERS are eligible to retire with full benefits after five years of credited service and attainment of age 65, after 20 years of credited service and attainment of age 55 with the benefit actuarially reduced from age 65, or 30 years of credited service and receive either a reduced benefit or stricter return-to-work rules.

Plan 3 under the TRS and SERS programs are defined benefit, defined contribution pension plans whose members joined on or after July 1, 1996, or September 1, 2000, for TRS and SERS, respectively. Members are eligible to retire with full benefits at age 65, or they may retire at age 55 with at least ten service years with a reduced benefit amount, or they may retire at age 55 with at least 30 service years and receive either a reduced benefit or stricter return-to-work rules.

Average final compensation (AFC) of Plan 1 TRS and PERS members is the highest average salary during any two consecutive years. For Plan 2 and Plan 3 TRS and SERS members, it is the highest average salary during any five consecutive years.

The retirement allowance of Plan 1 TRS and PERS members is the AFC multiplied by 2 percent per year of service capped at 60 percent with a cost-of-living adjustment. For Plan 2 TRS and SERS members, it is the AFC multiplied by 2 percent per year of service with provision for a cost-of-living adjustment. For the defined benefit portion of Plan 3 TRS and SERS it is the AFC multiplied by 1 percent per year of service with a cost-of-living adjustment.

The employer contribution rates for PERS, TRS, and SERS (Plans 1, 2, and 3) and the TRS and SERS Plan 2 employee contribution rates are established by the Pension Funding Council based upon the rates set by the Legislature. The employee contribution rate for Plan 1 in PERS and TRS is set by statute at 6 percent and does not vary from year to year. The employer rate is the same for all plans in a system. The methods used to determine the contribution requirements are established under chapters 41.40, 41.32, and 41.35 RCW for PERS, TRS and SERS respectively.

The district contribution represents its full liability under both systems, except that future rates may be adjusted to meet the system needs.

Plan 3 TRS and SERS:	5.00% (minimum), 15.00% (maximum)

NOTE 6: ANNUAL OTHER POST-EMPLOYMENT BENEFIT COST AND NET OPEB OBLIGATIONS

The State, through the Health Care Authority (HCA), administers an agent multi-employer Other Post-Employment Benefit plan. The Public Employees Benefits Board (PEBB), created within the HCA, is authorized to design benefits and determine the terms and conditions of employee and retired employee participation and coverage, including establishment of eligibility criteria for both active and retired employees. Programs include medical, dental, life insurance and long-term disability insurance.

Employers participating in the plan include the State of Washington (which includes general government agencies and higher education institutions), 57 of the state's K-12 school districts and educational service districts (ESDs), and 206 political subdivisions and tribal governments. Additionally, the PEBB plan is available to the retirees of the remaining 247 K-12 school districts and ESDs. The District's retirees are eligible to participate in the PEBB plan under this arrangement.

According to state law, the Washington State Treasurer collects a fee from all school district entities which have employees that are not current active members of the state Health Care Authority but participate in the state retirement system. The purpose of this fee is to cover the impact of the subsidized rate of health care benefits for school retirees that elect to purchase their health care benefits through the state Health Care Authority. For the fiscal year 2013-14 the District was required to pay the HCA \$64.40 per month per full-time equivalent employee to support the program, for a total payment of \$290,970.86. This assessment to the District is set forth in the State's operating budget and is subject to change on an annual basis. This amount is not actuarially determined and is not placed in a trust to pay the obligations for post-employment health care benefits.

The District has no control over the benefits offered to retirees, the rates charged to retirees, nor the fee paid to the Health Care Authority. The District does not determine its Annual Required Contribution nor the Net Other Post-Employment Benefit obligation associated with this plan.

Accordingly, these amounts are not shown on the financial statements. This is a departure from GAAP.

NOTE 7: COMMITMENTS UNDER OPERATING LEASES

The District entered into a lease agreement with Des and Carol Mathis to lease office space at the Selah Plaza for a two-year period (with an option for a third year). The lease term commenced on July 1, 2014 and will terminate on June 30, 2016 (unless the third year option is exercised). The monthly lease payment is \$4,200.00 (\$50,400 annually).

The District has also entered into a rental agreement with Des and Carol Mathis to rent additional office space at the Selah Plaza on a month-to-month basis. The monthly rent payment is \$400.00 until the rental agreement is terminated.

For the fiscal year ended August 31, 2014, the District had incurred additional long-term debt as follows:

Years Ending August 31,	Future Lease Payments
2015	\$50,400
2016	\$42,000
2017	-
2018	-
2019	-
Total	\$92,400

NOTE 8: CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS, INCLUDING ENCUMBRANCES, IF APPROPRIATE

Construction in progress is composed of:

Encumbrance accounting is employed in governmental funds. Purchase orders, contracts, and other commitments for the expenditure of moneys are recorded in order to reserve a portion of the applicable appropriation. Encumbrances lapse at the end of the fiscal year and may be re-encumbered the following year. The following encumbrance amounts were re-encumbered by fund on September 1, 2014:

Fund	Amount
General	\$ 112,980.84
ASB Fund	\$ 4,960.94
Capital Projects Fund	\$ -
Transportation Vehicle Fund	\$ -

NOTE 9: REQUIRED DISCLOSURES ABOUT CAPITAL ASSETS

The district's capital assets are insured in the amount of **\$145,534,991** for fiscal year 2013-2014. In the opinion of the District's insurance consultant, the amount is sufficient to adequately fund replacement of the District's assets.

At August 31, 2014 the district had **\$648,095.98** available in the Debt Service Fund to service the general obligation bonds.

NOTE 11: ENTITY RISK MANAGEMENT ACTIVITIES

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Insurance Pool

The district is a member of the Schools Insurance Association of Washington. Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint purchasing of insurance, and/or joint self-insuring, and/or joint hiring or contracting for risk management services to the same extent that they may individually purchase insurance, self-insure, or hire contract for risk management services. An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The program was formed on September 1, 1995, when seven mid-sized school districts in the State of Washington joined together by signing an Interlocal Agreement to pool their self-insured losses and jointly purchase insurance and administrative services. Presently, the SIAW program has 37 member districts.

The program allows members to jointly purchase insurance coverage and provide related services, such as administration, risk management, claims administration, etc. Coverage for Wrongful Act Liability and Employee Benefit Liability is on a claims-made basis. All other coverages are on an occurrence basis. The program provides the following forms of group purchased insurance coverage for its members: property, earthquake, liability, automotive liability, equipment breakdown, crime, employee benefits and wrongful act liability.

The program acquires liability insurance from unrelated underwriters that are subject to a per-occurrence deductible of \$100,000. Members are responsible for \$2,500 deductible for each claim, while the program is responsible for the \$100,000 self insured retention. Insurance carriers cover insured losses over \$102,500 to the limits of each policy. Since the

program is a cooperative program, there is a joint liability among the participating members towards the sharing of the \$100,000 of the self insured retention. The program also purchases a Stop Loss Policy with an attachment point of \$3,400,000, which it fully funds in its annual budget.

Property insurance is subject to a per-occurrence self insured retention of \$250,000. Members are responsible for a \$10,000 deductible amount for each claim. The program is responsible for the remaining \$250,000 self-insured retention. Equipment Breakdown insurance is subject to a per-occurrence deductible of \$10,000.00. Members are responsible for the deductible amount of each claim.

Members contract to remain in the program for one year and must give notice before December 31 before terminating participation the following September 1. Renewal of the Interlocal Agreement occurs automatically each year. Even after termination, a member is still responsible for contributions to the program for any unresolved, unreported, and in-process claims for the period they were a signatory to the Interlocal Agreement.

The program is fully funded by its member participants. Claims are filed by members with Canfield, which has been contracted to perform program administration, claims adjustment and administration and loss prevention for the program. Fees paid to the third party administrator under this arrangement for the year ended August 31, 2014, were \$2,956,785.70.

A Board of Directors of eight members is selected by the membership from the east and west side of the state and is responsible for conducting the business affairs of the program. The Board of Directors has contracted with Canfield to perform day-to-day administration of the pool. This program has no employees.

Worker's Compensation Pool

Chapter 48.62 RCW authorizes the governing body of any one or more governmental entities to form together into or join a pool or organization for the joint self-insuring to the same extent that they may individually self-insure. Separate agreements to form a workers' compensation pool were made pursuant to the provision of Chapter 39.34 RCW, the Interlocal Cooperation Act. The North Central Washington Workers' Compensation Pool was formed on April 1, 1984, when school districts and North Central Educational Service District in the State of Washington joined together by signing an Interlocal Governmental Agreement to pool their self-insured losses. Twenty-nine school districts and North Central ESD have joined the workers' compensation pool.

This pool is operated for the Selah School District's benefit in lieu of the district having to make monthly premium payments to the State of Washington for industrial insurance. Membership automatically renews each year. Even after termination, members are still responsible for contributions for unresolved claims occurring during a period when the district was a member of the pool.

The pool is governed by the board of directors which is comprised of one designated representative from each participating member. An executive committee is elected for conducting the business affairs of the pool.

Each member's contributions to the pool is determined by a rate-making formula based on claims cost and other expenses paid. In fiscal year ending August 31, 2014, Selah School District made no payments to the unemployment insurance pool or to the industrial insurance pool.

NOTE 12: PROPERTY TAXES

Property tax revenues are collected as the result of special levies passed by the voters in the District. Taxes are levied on January 1. The taxpayer has the obligation of paying all taxes on April 30 or one-half then and one-half on October 31. Typically, slightly more than half of the collections are made on the April 30 date. The October 31 collection is not available in time to cover liabilities for the fiscal period ended August 31. Therefore, the fall portion of property taxes is not accrued as revenue. Instead, the taxes due on October 31 are recorded as deferred revenue.

NOTE 13: JOINT VENTURES AND JOINTLY GOVERNED ORGANIZATIONS

The district is a member of the King County Directors' Association (KCDA). KCDA is a purchasing cooperative designed to pool the member districts' purchasing power. The board authorized joining the association by passing in its minutes dated April 18, 1978 and has remained in the joint venture ever since. The district's current equity of **\$ 30,643.24** is the accumulation of the annual assignment of KCDA's operating surplus based upon the percentage derived from KCDA's total sales to the district compared to all other districts applied against paid administrative fees. The district may withdraw from the joint venture and will receive its equity in ten annual allocations of merchandise or 15 annual payments.

Fund balance designated for carryover and reserves will be above the required amounts specified. The percentage will be based on budgeted expenditures for each school year. Portions of fund balance that are set aside for the purpose of meeting this policy are recorded on the financial statements as a part of Committed Fund Balance.

NOTE 14: POST-EMPLOYMENT BENEFIT PLANS OTHER THAN PENSION PLANS – BOTH IN SEPARATELY ISSUED PLAN FINANCIAL STATEMENTS AND EMPLOYER STATEMENTS

457 Plan – Deferred Compensation Plan

District employees have the option of participating in a deferred compensation plan as defined in Section 457 of the Internal Revenue Code that is administered by the state deferred compensation plan, or District

403(b) Plan – Tax Sheltered Annuity (TSA)

The District offers a tax deferred annuity plan for its employees. The plan permits participants to defer a portion of their salary until future years under elective deferrals: elective deferrals (employee contribution) and non-elective contribution (employer matching).

The District complies with IRS regulations that require school districts to have a written plan to include participating investment companies, types of investments, loans, transfers, and various requirements. The plan is administered by a third party administrator. The plan assets are assets of the District employees, not the school district, and are therefore not reflected on these financial statements. For the year ended August 31, 2013, the District made no (discretionary and/or matching) employer contributions to the plan.

NOTE 15: TERMINATION BENEFITS

Compensated Absences

Employees earn sick leave at a rate of 12 days per year up to a maximum of one contract year.

Under the provisions of RCW 28A.400.210, sick leave accumulated by district employees is reimbursed at death or retirement at the rate of one day for each four days of accrued leave, limited to 180 accrued days. This chapter also provides for an annual buy out of an amount up to the maximum annual accumulation of 12 days. For buyout purposes employees may accumulate such leave to a maximum of 192 days, including the annual accumulation, as of December 31 of each year.

These expenditures are recorded when paid, except termination sick leave that is accrued upon death, retirement, or upon termination provided the employee is at least 55 years of age and has sufficient years of service. Vested sick leave was computed using the vesting method.

Vacation pay, including benefits, that is expected to be liquidated with expendable available financial resources is reported as expenditures and a fund liability of the governmental fund that will pay it.

No unrecorded liability exists for other employee benefits.

NOTE 16: PRIOR PERIOD ADJUSTMENT

Unemployment Compensation Pool

The district is a member of the Educational Service District No. 105(ESD105) Unemployment Compensation Pool. This pool was created in 1988 to form a risk sharing pool as defined by the Governmental Accounting Standards Board (GASB) for the purposes of reimbursing the Washington State Department of Employment Security for unemployment compensation benefits which are a liability of the District. The district remits funds to ESD105 necessary to fund the district's obligation for unemployment compensation in accordance with the Unemployment Pool's Account Agreement. Under this cooperative agreement, ESD105 holds the district's funds and remits payments to the Washington State Department of Employment Security on behalf of the district.

GASB Statement No. 10 Accounting and Financial Reporting for Risk Financing and Related Insurance Issues requires the district to include the funds held by ESD105 in the financial statements. These funds were omitted from the financial statements in the prior period. The prior period adjustment for the September 1, 2014 adds \$188,449 to Investments/ Cash held with Trustee and \$188,449 to Fund Balance Committed to Other Purposes to the opening balances.

Compensated Absence Liability Pool

The District is a member of the North Central Compensated Absences Liability Pool and the North Central Unemployment Cooperative with the North Central ESD. Funds held at the ESD are now reported as assets in the District's Annual Financial Statements.

GASB Statement No. 10 Accounting and Financial Reporting for Risk Financing and Related Insurance Issues requires the district to include the funds held by North Central ESD in the financial statements. These funds were omitted from the financial statements in the prior period. The prior period adjustment for the September 1, 2014 adds \$259,350 to Investments/ Cash held with Trustee and \$259,350 to Fund Balance Committed to Other Purposes to the opening balances.

Selah School District #119
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ending August 31, 2014

NOTE 1 - BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal Awards is prepared on the same basis of accounting as the Selah School District's financial statements. The district uses the modified accrual basis of accounting. Expenditures represent only the federal funded portions of the program. District records should be consulted to determine amounts expended or matched from non-federal sources.

NOTE 2 – PROGRAM COSTS/MATCHING CONTRIBUTIONS

The amounts shown as current year expenses represent only the federal grant portion of the program costs. The entire program costs, including the district's local matching share, may be more than shown.

NOTE 3 – NONCASH AWARDS

The amount of commodities reported on the schedule is the value of commodities distributed by the district during the current year and priced as prescribed by the Office of Superintendent of Instruction.

NOTE 4 – SCHOOLWIDE PROGRAMS

The District operates a "schoolwide program" in two elementary buildings. Using federal funding, schoolwide programs are designed to upgrade an entire educational program within a school for all students, rather than limit services to certain targeted students. The following federal program amounts were expended by the District in its schoolwide program: Title I (84.010) \$740,402.61.

NOTE 5 – TRANSFERABILITY

The district does not exercise the transferability options as allowed by federal regulations.

NOTE 6 – SMALL RURAL SCHOOLS ACHIEVEMENT (SRSA)

The district does not exercise the SRSA options as allowed by federal regulations.

NOTE 7 – FEDERAL INDIRECT RATE

The district claimed indirect costs under this grant using its federal restricted rate of 4.25%.

NOTE 8 – AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA)

The district did not receive funding provided by the American Recovery and Reinvestment Act of 2009 (ARRA).
