INFORMATION ABOUT THE DISTRICT

Public Utility District No. 1 of Lewis County was formed in 1936 and commenced operations in 1939. The District is organized in two primary operating systems: The Electric Distribution System and the Cowlitz Falls Hydroelectric Project. The Electric Distribution System provides retail electricity to approximately 31,800 customers and also operates a fiber optic system used for utility purposes and wholesale customers. The Cowlitz Falls Hydroelectric Project was jointly developed with the Bonneville Power Administration (BPA) and completed in 1994. The District signed a Power Purchase Agreement with BPA for all of the generation of the project and, in exchange, BPA pays the entire project's operations and maintenance costs and debt service through September 30, 2032.

An elected, three-member Board of Commissioners governs the District. The Board appoints a General Manager to oversee the District's daily operations as well as its approximately 105 employees. For fiscal years 2013 and 2014, the District's Electric Distribution System generated annual operating revenues of approximately \$61.4 million and \$66.2 million, respectively.
