## AUDIT RESULTS

This report describes the overall results and conclusions for the areas we examined. In those selected areas, District operations complied with applicable state laws, regulations, and its own policies, and provided adequate controls over the safeguarding of public resources.

### About the audit

This report contains the results of our independent accountability audit of Public Utility District No. 1 of Skamania County from January 1, 2017 through December 31, 2017.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

This audit was conducted under the authority of RCW 43.09.260, which requires the Office of the State Auditor to examine the financial affairs of all local governments. Our audit involved performing procedures to obtain evidence about the District's uses of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, based on our risk assessment for the year ended December 31, 2017, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. The following areas were examined during this audit period:

- Utilities – verification of billing rates, accuracy of billing calculations
- Cash receipting – timeliness and completeness of deposits, voids and adjustments
- Payroll disbursements – recalculation of gross wages, including overtime pay and use of vacation and sick time
- Accounts payable transactions – purchase cards, travel expenses, and mutual aid transactions
- Accounts receivable – collection procedures and compliance with District policy
- Self-insurance for unemployment compensation
- Procurement – purchases of materials, equipment and supplies, and public works projects, specifically the Brooks Reservoir
