Report on Accountability

Thank you for the opportunity to work with you to promote accountability, integrity and openness in government. The State Auditor's Office takes seriously our role of providing state and local governments with assurance and accountability as the independent auditor of public accounts. In this way, we strive to help government work better, cost less, deliver higher value and earn greater public trust.

Independent audits provide essential accountability and transparency for City operations. This information is valuable to management, the governing body and public stakeholders when assessing the government's stewardship of public resources.

The attached comprises our independent audit report on the City's compliance with applicable requirements and safeguarding of public resources for the areas we examined. We appreciate the opportunity to work with your staff and we value your cooperation during the audit.

Sincerely,

AUDIT RESULTS

This report describes the overall results and conclusions for the areas we examined. In most of the areas we examined, City operations complied with applicable state laws, regulations, and its own policies, and provided adequate controls over safeguarding of public resources.

As referenced above, we noted certain matters that we communicated to City management and Mayor and City Council in a letter dated November 19, 2018, related to compliance with procurement requirements. We appreciate the City's commitment to resolving those matters.

About the audit

This report contains the results of our independent accountability audit of the City of College Place from January 1, 2017 through December 31, 2017.

Management is responsible for ensuring compliance and adequate safeguarding of public resources from fraud, loss or abuse. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

This audit was conducted under the authority of RCW 43.09.260, which requires the Office of the State Auditor to examine the financial affairs of all local governments. Our audit involved performing procedures to obtain evidence about the City's uses of public resources, compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, based on our risk assessment for the year ended December 31, 2017, the areas examined were those representing the highest risk of fraud, loss, abuse, or noncompliance. The following areas were examined during this audit period:

- Procurement – public works and purchases
- Payroll – gross wage recalculation and leave cash-outs
- Selected IT security procedures, practices, and controls protecting financial systems, IT systems, and data
