Thank you for the opportunity to work with you to promote accountability, integrity and openness in government. The State Auditor's Office takes seriously our role of providing state and local governments with assurance and accountability as the independent auditor of public accounts. In this way, we strive to help government work better, cost less, deliver higher value and earn greater public trust.

Independent audits provide essential accountability and transparency for District operations. This information is valuable to management, the governing body and public stakeholders when assessing the government's stewardship of public resources.

The attached comprises our report on the District's compliance with alternative learning experience enrollment reporting rules. Our independent audit report describes the overall results and conclusions for areas we examined. We appreciate the opportunity to work with your staff and we value your cooperation during the audit.

Sincerely,

## AUDIT SUMMARY

### Results in brief

District operations complied with applicable state laws and regulations and its own policies and procedures regarding alternative learning experience (ALE) enrollment. For the year ending August 31, 2014, the District received approximately \$5.8 million in combined enrollment and staff mix funding; approximately \$136,285 of this was related to its ALE programs.

- Newport Parent Partnership – The program reported 25.73 average annual full-time equivalent (AAFTE). Procedures performed over this program were limited to considering internal controls the District has in place to assure compliance with reporting requirements. Nothing came to our attention to cause us to believe the District did not comply with reporting requirements.

### About alternative learning experience programs

ALE programs are a form of basic K-12 public school education in Washington State. While students in traditional basic education attend classes on campus and have face-to-face contact with teachers and other staff, ALE students may spend most, or even all, of their time outside of a regular classroom setting.

Districts may build Internet-based educational programs that enroll students from anywhere in the state. Besides Internet programs, ALE can be accomplished through a contract between a student and district instructors, or through a parent-partner program in which parents participate in the design and teaching of the student's courses. These programs are different from homeschooling in that students remain part of the public school system and districts claiming funding are responsible for supervision, monitoring, assessing and evaluating the student's education.

Districts may count ALE students for funding when they report enrollment to the Office of Superintendent of Public Instruction (OSPI). In order to claim ALE students for funding, ALE programs must satisfy OSPI's requirement for courses of study leading to a high school diploma. Districts must prepare detailed plans for each student, maintain regular contact with students, and evaluate student progress on a monthly basis. Districts must also keep detailed records to show they have met all of these requirements.

During the period under review, the District operated one ALE program, which accounted for 2.6 percent of its total basic student enrollment:

- Newport Parent Partnership is a parent partnership program serving students in grades K-12. The program did not report any nonresident students for funding.

## About the audit

Per RCW 28A.232.010, school districts must receive biennial audits of their ALE program. This report contains the results of our independent audit of ALE enrollment at Newport Consolidated Joint School District No. 56-415 from September 1, 2013 through August 31, 2014.

Management is responsible for ensuring compliance with applicable ALE requirements. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

Our audit involved performing procedures to obtain evidence about the District's compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters, with regard to its ALE program.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of noncompliance.
