## AUDIT SUMMARY

### Results in brief

District operations complied with applicable state laws and regulations and its own policies and procedures regarding alternative learning experience (ALE) enrollment. For the year ending August 31, 2014, the District received approximately \$22.8 million in combined enrollment and staff mix funding; approximately \$464,364 of this was related to its ALE programs.

- Contract Based Education – The program reported 26.64 average annual full-time equivalent (AAFTE). Procedures performed over this program were limited to considering internal controls the District has in place to assure compliance with reporting requirements. Nothing came to our attention to cause us to believe the District did not comply with reporting requirements.
- Home Partnership Academy – The program reported 61.03 average annual full-time equivalent (AAFTE). Procedures performed over this program were limited to considering internal controls the District has in place to assure compliance with reporting requirements. Nothing came to our attention to cause us to believe the District did not comply with reporting requirements.

### About alternative learning experience programs

ALE programs are a form of basic K-12 public school education in Washington State. While students in traditional basic education attend classes on campus and have face-to-face contact with teachers and other staff, ALE students may spend most, or even all, of their time outside of a regular classroom setting.

Districts may build Internet-based educational programs that enroll students from anywhere in the state. Besides Internet programs, ALE can be accomplished through a contract between a student and district instructors, or through a parent-partner program in which parents participate in the design and teaching of the student's courses. These programs are different from homeschooling in that students remain part of the public school system and districts claiming funding are responsible for supervision, monitoring, assessing and evaluating the student's education.

Districts may count ALE students for funding when they report enrollment to the Office of Superintendent of Public Instruction (OSPI). In order to claim ALE students for funding, ALE programs must satisfy OSPI's requirement for courses of study leading to a high school diploma.

Districts must prepare detailed plans for each student, maintain regular contact with students, and evaluate student progress on a monthly basis. Districts must also keep detailed records to show they have met all of these requirements.

During the period under review, the District operated two ALE programs, which accounted for 2.2 percent of its total basic student enrollment:

- Contract Based Education is a program serving students in grades 11-12. The program has operated for 16 years and does not have any nonresident students.
- Home Partnership Academy is parent partnership program serving students in grades 1-12. The program has operated for 12 years and does not have any nonresident student enrollment.

## About the audit

Per RCW 28A.232.010, school districts must receive biennial audits of their ALE program. This report contains the results of our independent audit of ALE enrollment at Shelton School District No. 309 from September 1, 2013 through August 31, 2014.

Management is responsible for ensuring compliance with applicable ALE requirements. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

Our audit involved performing procedures to obtain evidence about the District's compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters, with regard to its ALE program.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of noncompliance.
