Board of Directors
Snoqualmie Valley School District No. 410
Snoqualmie, Washington

Report on Alternative Learning Experience

Thank you for the opportunity to work with you to promote accountability, integrity and openness in government. The State Auditor's Office takes seriously our role of providing state and local governments with assurance and accountability as the independent auditor of public accounts. In this way, we strive to help government work better, cost less, deliver higher value and earn greater public trust.

Independent audits provide essential accountability and transparency for District operations. This information is valuable to management, the governing body and public stakeholders when assessing the government's stewardship of public resources.

The attached comprises our report on the District's compliance with alternative learning experience enrollment reporting rules. Our independent audit report describes the overall results and conclusions for areas we examined. We appreciate the opportunity to work with your staff and we value your cooperation during the audit.

Sincerely,

Pat McCarthy
State Auditor
Olympia, WA

AUDIT SUMMARY

Results in brief

District operations complied with applicable state laws and regulations and its own policies and procedures regarding alternative learning experience (ALE) enrollment. For the year ending August 31, 2016, the District received approximately \$39.5 million in combined enrollment and staff mix funding; approximately \$1 million of this was related to its ALE programs.

- Two Rivers School – The program reported 80.26 average annual full-time equivalent (AAFTE). Our audit of this program tested a sample of seven students and found 0.10 AAFTE over-reported. Errors were due to a missing Written Student Learning Plan (WSLP) and Progress Review.

We estimate these errors resulted in \$631 in over funding.

- Snoqualmie Parent Partnership Program – The program reported 71.9 AAFTE. Our audit of this program tested a sample of seven students and found 0.98 AAFTE over-reported. Errors were due to funding claimed which was not supported by the expected hours in the WSLPs, monthly evaluations not conducted for all courses, and one course disallowed for religious content.

We estimate these errors resulted in \$6,186 in over funding.

- Mt. Si Online Academy – The program reported 11.0 AAFTE. Procedures performed over this program were limited to considering internal controls the District has in place to assure compliance with reporting requirements. Nothing came to our attention to cause us to believe the District did not comply with reporting requirements.

About alternative learning experience programs

ALE programs are a form of basic K-12 public school education in Washington State. While students in traditional basic education attend classes on campus and have face-to-face contact with teachers and other staff, ALE students may spend most, or even all, of their time outside of a regular classroom setting.

Districts may build Internet-based educational programs that enroll students from anywhere in the state. Besides Internet programs, ALE can be accomplished through a contract between a student and district instructors, or through a parent-partner program in which parents participate in the design and teaching of the student's courses. These programs are different from homeschooling in that students remain part of the public school system and districts claiming funding are responsible for supervision, monitoring, assessing and evaluating the student's education.

Districts may count ALE students for funding when they report enrollment to the Office of Superintendent of Public Instruction (OSPI). In order to claim ALE students for funding, ALE programs must satisfy OSPI's requirement for courses of study leading to a high school diploma. Districts must prepare detailed plans for each student, maintain regular contact with students, and evaluate student progress on a monthly basis. Districts must also keep detailed records to show they have met all of these requirements.

During the period under review, the District operated three ALE programs, which accounted for 2.6 percent of its total basic student enrollment:

- Two Rivers School is a site-based program serving students in grades 9-12. Students are on the District campus for most of their courses. The program has operated for about 30 years does not have any non-resident student enrollment.
- Snoqualmie Parent Partnership Program is a remote program serving students in grades K-10. Students are remote for most of their courses, but are required to have at least one class weekly on campus. The program has operated for four years and does not have any non-resident student enrollment.
- Mt. Si Online Academy is an on-line program serving students in grades 9-12. Students are on-line for most of their courses. The program has operated for six years and does not have any non-resident student enrollment.

About the audit

Per RCW 28A.232.010, school districts must receive biennial audits of their ALE program. This report contains the results of our independent audit of ALE enrollment at Snoqualmie Valley School District No. 410 from September 1, 2015 through August 31, 2016.

Management is responsible for ensuring compliance with applicable ALE requirements. This includes the design, implementation and maintenance of internal controls relevant to these objectives.

Our audit involved performing procedures to obtain evidence about the District's compliance with state laws and regulations and its own policies and procedures, and internal controls over such matters, with regard to its ALE program.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of noncompliance.

INFORMATION ABOUT THE DISTRICT

Snoqualmie Valley School District No. 410 is located in the foothills of the Cascade Mountains and covers 400 square miles serving the communities of Snoqualmie, North Bend, Fall City and surrounding areas of unincorporated King County. The District serves about 6,300 students and families with six elementary schools, two middle schools, one comprehensive high school, and one alternative school.

An elected, five-member Board of Directors governs the District. The Board appoints the Superintendent to oversee the District's daily operations as well as its 702 employees. For fiscal year 2016, the District's general fund operated on an annual budget of approximately \$70.9 million.

ABOUT THE STATE AUDITOR'S OFFICE

The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

We work with our audit clients and citizens to achieve our vision of government that works for citizens, by helping governments work better, cost less, deliver higher value, and earn greater public trust.

In fulfilling our mission to hold state and local governments accountable for the use of public resources, we also hold ourselves accountable by continually improving our audit quality and operational efficiency and developing highly engaged and committed employees.

As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments as well as [fraud](#), state [whistleblower](#) and [citizen hotline](#) investigations.

The results of our work are widely distributed through a variety of reports, which are available on our [website](#) and through our free, electronic [subscription](#) service.

We take our role as partners in accountability seriously, and provide training and technical assistance to governments, and have an extensive quality assurance program.
