SCHEDULE OF FINDINGS AND QUESTIONED COSTS

Washington State Fruit Commission April 1, 2023 through March 31, 2024

SECTION I – SUMMARY OF AUDITOR’S RESULTS

The results of our audit of the Washington State Fruit Commission are summarized below in accordance with Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Financial Statements

We issued an unmodified opinion on the fair presentation of the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP).

Internal Control over Financial Reporting:

- *Significant Deficiencies:* We reported no deficiencies in the design or operation of internal control over financial reporting that we consider to be significant deficiencies.
- *Material Weaknesses:* We identified no deficiencies that we consider to be material weaknesses.

We noted no instances of noncompliance that were material to the financial statements of the Commission.

Federal Awards

Internal Control over Major Programs:

- *Significant Deficiencies:* We reported no deficiencies in the design or operation of internal control over major federal programs that we consider to be significant deficiencies.
- *Material Weaknesses:* We identified no deficiencies that we consider to be material weaknesses.

We issued an unmodified opinion on the Commission’s compliance with requirements applicable to its major federal program.

We reported no findings that are required to be disclosed in accordance with 2 CFR 200.516(a).

Identification of Major Federal Programs

The following program was selected as a major program in our audit of compliance in accordance with the Uniform Guidance.

<u>ALN</u>	<u>Program or Cluster Title</u>
10.601	Market Access Program

The dollar threshold used to distinguish between Type A and Type B programs, as prescribed by the Uniform Guidance, was \$750,000.

The Commission qualified as a low-risk auditee under the Uniform Guidance.

SECTION II – FINANCIAL STATEMENT FINDINGS

None reported.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None reported.

INDEPENDENT AUDITOR'S REPORT

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Washington State Fruit Commission April 1, 2023 through March 31, 2024

Board of Commissioners
Washington State Fruit Commission
Yakima, Washington

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Washington State Fruit Commission, as of and for the year ended March 31, 2024, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated December 17, 2024.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be material weaknesses or

significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified.

Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

REPORT ON COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

A handwritten signature in black ink, reading "Pat McCarthy". The signature is fluid and cursive, with the first name "Pat" and last name "McCarthy" clearly distinguishable.

INDEPENDENT AUDITOR'S REPORT

Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in Accordance with the Uniform Guidance

Washington State Fruit Commission April 1, 2023 through March 31, 2024

Board of Commissioners
Washington State Fruit Commission
Yakima, Washington

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

Opinion on Each Major Federal Program

We have audited the compliance of the Washington State Fruit Commission, with the types of compliance requirements identified as subject to audit in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the Commission's major federal programs for the year ended March 31, 2024. The Commission's major federal programs are identified in the auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended March 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination on the Commission's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Commission's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Commission's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards* and the Uniform Guidance will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgement made by a reasonable user of the report on compliance about the Commission's compliance with the requirements of each major federal program as a whole.

Performing an audit in accordance with GAAS, *Government Auditing Standards* and the Uniform Guidance includes the following responsibilities:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Commission's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances;

- Obtain an understanding of the Commission's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over compliance. Accordingly, no such opinion is expressed; and
- We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed. Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified.

Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited. It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Financial Statements

Washington State Fruit Commission April 1, 2023 through March 31, 2024

Board of Commissioners
Washington State Fruit Commission
Yakima, Washington

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying financial statements of the Washington State Fruit Commission, as of and for the year ended March 31, 2024, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the financial section of our report.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Washington State Fruit Commission, as of March 31, 2024, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Matter of Emphasis

As discussed in Note 1, the financial statements of the Washington State Fruit Commission, an agency of the state of Washington, are intended to present the financial position, and the changes in financial position, and where applicable, cash flows of only the respective portion of the

activities of the state of Washington that is attributable to the transactions of the Commission. They do not purport to, and do not, present fairly in the financial position of the state of Washington as of March 31, 2024, the changes in its financial position, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Performing an audit in accordance with GAAS and *Government Auditing Standards* includes the following responsibilities:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, no such opinion is expressed;
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements;
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for a reasonable period of time; and
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the financial section of our report be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Commission's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This supplementary information is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The

information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2024 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Washington State Fruit Commission (Commission), we offer readers of the Commission's basic financial statements this narrative overview and analysis of the financial activities of the Commission for the fiscal years ending March 31, 2023, and March 31, 2024. The intent of this discussion and analysis is to look at the Commission's performance as a whole. Readers should also review the notes to the financial statements and the basic financial statements to enhance their understanding of the Commission's financial performance.

Financial Highlights

- *Revenues –*

The Commission's FY24 revenues of \$9,720,957 consist of \$2,966,981 in assessment collections, \$1,920,891 in publication revenue for advertising and subscriptions sales of the *Good Fruit Grower* publication, \$2,057,188 in federal and state grant funds, \$1,417,884 in industry assessment revenue, and \$536,295 in partner revenue. The remaining revenue of \$821,718 consists of trade shows, administrative services, office space lease, investments, and other income.

In comparison, FY23 revenues of \$8,583,591 consists of \$2,081,685 in assessment collections, \$2,134,365 in publication revenue for advertising and subscriptions sales of the *Good Fruit Grower* publication, \$2,030,367 in federal and state grant funds, \$1,121,189 in industry assessment revenue, and \$445,059 in partner revenue. The remaining revenue of \$770,926 consists of administrative services, office space lease, investments, and other income.

The FY24 revenues reflect a increase over prior FY23 of \$1,137,006 mainly due to the cherry crop tonnage returning to normal levels after the prior year's crop being smaller due to inclement weather in early spring resulting with snow on the bloom and ultimately poor bee pollination and stress to the trees.

- *Expenditures –*

The Commission's FY24 expenditures of \$10,275,217 consists mainly of \$5,209,944 in promotion programs, \$1,417,884 in industry assessment expense, \$2,109,190 in salary and benefits, \$594,204 in publication expenses, and \$492,255 in administrative services to industry partners, with the balance of \$451,740 in general operations.

In comparison, The Commission's FY23 expenditures of \$9,001,903 consist mainly of \$4,649,452 in promotion programs, \$1,121,189 in industry assessment expense, \$1,738,101 in salary and benefits, \$576,283 in publication expenses, and \$436,204 in administrative services to industry partners, with the balance of \$480,674 in general operations.

The increased crop size over the prior year led to an increase in promotion programs and industry assessment expenses FY24 expenditures reflect an increase over FY23 by \$1,273,314.

- *Capital Purchases* – During FY24, the Commission purchased a vehicle and computer for \$43,363 and \$3,789, respectively. Further, total fixed assets were reduced for the removal of various computers and obsolete items.
- *Net Position* – The assets and outflows of the Commission exceeded their liabilities and inflows at the close of FY24 by \$4,066,137 (net position) and by \$4,620,398 at the close of FY23. The Commission's total FY24 net position decreases over the prior FY23 net position by \$554,261.
- The Commission continues to operate without the need for operating debt borrowings.

Overview of the Basic Financial Statements

This discussion and analysis are intended to serve as an introduction to the Commission's basic financial statements. The Commission's basic financial statements are comprised of two components: 1) financial statements, and 2) notes to the financial statements.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Proprietary funds – All of the Commission's services are reported in enterprise funds. They account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. They also are reported using the full accrual method of accounting in which all assets and all liabilities associated with the operation of these funds are included in the statement of net position. The focus of proprietary funds is on income measurement, which, together with the maintenance of equity, is an important financial indication.

The statement of net position presents information on the Commission's assets, liabilities, deferred outflow of resources, deferred inflow of resources, and net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating. The statement of net position can be found on page 9 of this report.

The statement of revenues and expenses combined with the statement of changes in net position presents information showing how the Commission's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash

flows in future fiscal periods. The statement of revenues, expenses, and changes in net position can be found on page 10 of this report.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the fund financial statements. The notes to the financial statements can be found on pages 12 through 31 of this report.

Much of the Commission's revenues are derived from assessments collected on stone fruit crops, federal and state grant funding, and advertising sales. Future funding resources may be significantly affected due to weather and economic conditions.

Financial Analysis

The previous two Northwest cherry crops had to deal with extreme weather conditions, a late and large 2023 California cherry crop brought Northwest Cherry growers and Washington State Fruit Commission a very challenging marketing and promotion season. California cherries flooded the 4th of July domestic grocery retailer market, where over 50% of the retail shelf space was allocated to the California crop.

While the current 2023 cherry season didn't have extreme weather events, most of the Northwest cherry harvest window was compressed into a 30-day period, where 13 million boxes of cherries were shipped out of the Northwest from June 25th to July 25th. In comparison, the entire 2022 cherry crop totaled 13.3 million boxes.

These conditions caused an oversupply of cherries available for domestic and export markets, thus, resulting in reduced sales prices of cherries being sold by Northwest packers to the cherry retailers. To combat the oversupply of cherries, the Washington State Fruit Commission worked diligently with domestic retailers to increase cherry promotion activities.

As mentioned in previous reports, the *Good Fruit Grower* publication is experiencing the difficulties of increasing expenses and a continued reduction in advertising revenues. Due to the industry specific readership that the *Good Fruit Grower* publication reaches, current inflation rates are beginning to show signs of potential reduction in advertising support.

During the fiscal year end March 31, 2024, the Washington State Fruit Commission provided employee wage increases of approximately 8.5% based on cost-of-living adjustment (COLA). This contributed to Salaries & Benefits expense increase of approximately \$371,000.

Therefore, the decrease in crop assessments resulted in a decrease to the net position of \$554,261. Therefore, on March 31, 2024, the Commission's net position is \$4,066,137, of which \$2,159,134 was unrestricted.

Capital Assets and Long-Term Debt

CAPITAL ASSETS

The Commission's investment in capital assets as of March 31, 2024, totals \$1,134,154 (net of accumulated depreciation and amortization.) This investment in capital assets includes land, buildings, leasehold improvements, equipment, and right-to-use lease assets. The FY23 investment in capital assets (net of accumulated depreciation & amortization) was \$1,167,703. The total decrease in the Commission's investment in capital assets for the current fiscal year was \$33,549.

The major change to capital asset events during the current fiscal year was the purchase of a vehicle. The detail of capital assets before depreciation and amortization are as follows:

Capital Assets at Year-end

Buildings	\$ 1,848,386
Furniture and Equipment	442,756
Land	174,240
Leasehold Improvements	340,785
Right-of-Use Asset	<u>11,238</u>
Total	\$ 2,817,405

Refer to financial notes for further information.

Economic Factors and Next Year's Budgets and Rates

The Commission is primarily dependent upon assessments of stone fruit tonnage for the funding of promotional programs, educational programs, and business operations. Therefore, the Commission is affected by crop production. Pre-season cherry crop estimates indicated a 2024 crop close to or above industry average.

Although there are ample reserves, management will continue to watch the crop estimates closely and will adjust the promotional activities accordingly.

Additional revenue sources include the *Good Fruit Grower* publication. The current economic conditions both nationally and worldwide have put a stronger spotlight on a publication's ability to generate advertising revenue. Content remains king in terms of attracting and retaining advertising revenue. Given the high, existing levels in usage of digital sources of information (websites, internet search, email); the *Good Fruit Grower* continues to expand its digital presence and enhance the Spanish content thus providing further avenues of advertising exposure. Due to the industry specific readership that the *Good Fruit Grower* publication reaches, current inflation rates are beginning to show signs of potential reduction in advertising support. Management will monitor sales trends closely and adjust accordingly.

---------------------------------------	-----------------------

The accompanying notes are an integral part of the cash flow statement.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Commission have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described below.

A. Reporting Entity

The Washington State Fruit Commission, (the Commission), a corporation and Washington State Agency defined under RCW15.28, was created in order to develop and promote Washington's soft tree fruits as part of an existing comprehensive regulatory scheme, vital to the continued economic well-being of the citizens of this state and their general welfare that its soft tree fruits be properly promoted by (a) enabling the soft tree fruit industry to help themselves in establishing orderly, fair, sound, efficient, and unhampered cooperative marketing, grading, and standardizing of soft tree fruits they produce; and (b) working to stabilize the soft tree fruit industry by increasing consumption of soft tree fruits within the state, the nation, and internationally.

The Commission is governed by a board composed of seventeen voting members, as follows: Ten producers, four dealers, two processors, and the director of WSDA, or an authorized representative. A majority of the voting members constitute a quorum for the transaction of any business.

An annual assessment is levied upon all commercial soft tree fruits grown in the state or packed as Washington soft tree fruit. The Commission's financial statements include the financial position and results of operations.

B. Basis of Accounting

The Commission uses the full-accrual basis of accounting where revenues are recognized when earned and expenses are recognized when incurred. Capital asset purchases are capitalized, and long-term liabilities are accounted for in the appropriate funds. Grant revenues are recognized when earned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Commission are assessments levied on all commercial tree soft fruit produced in Washington State or held out as being produced in Washington State for fresh or processing use. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenues and expenses.

C. Budgets

The Commission is not required to prepare a budget.

D. Assets, Liabilities and Fund Balance

1. Cash and Cash Equivalents

The Commission considers cash and equivalents to include all checking, savings, and municipal investments accounts with no maturity dates. It is the Commission's policy to invest all temporary cash surpluses. The amount is classified on the balance sheet as cash and equivalents in various funds. The interest in these investments is pro-rated to the various funds.

2. Temporary Investments – See Note 2

3. Receivables

Receivables consist of amounts due from assessments, advertising in the *Good Fruit Grower* magazine, and administrative and accounting services provided to other industry members relating to the tree fruit industry.

4. Capital Assets and Depreciation – See Note 3

5. Deferred outflow/inflows of resources

In addition to assets, the statement of financial position will report a separate section for deferred outflows of resources. This separate financial statement element *Deferred Outflows of Resources* represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The Commission has recorded deferred outflows of resources for items related to various deferred pension and OPEB costs. In addition to liabilities, the statement of financial position will report in a separate section for deferred inflows of resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The Commission has recorded deferred inflows of resources and/or deferred outflows of resources for items related to various deferred pension adjustments.

6. Pensions – See Note 4

For purposes of measuring the net pension liability, pension assets, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of all state sponsored pension plans and additions to/deductions from those plans' fiduciary net position have been determined on the same basis as they are reported by the Washington State Department of Retirement Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

7. Other Post-Employment Benefits (OPEB) – See Note 5

The Commission recognizes a total OPEB liability for the actuarially determined future benefits related to health insurance that is made available to certain retirees.

8. Lease Liability - See Note 6

The Commission recognizes a lease liability for leased equipment.

9. Accumulated Unpaid Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation (and sick) leave. All vacation and sick pay are accrued when incurred. Vacation payable, which may be accumulated up to 240 hours (30 days), is payable upon resignation, retirement, or death. Accumulated sick leave is not payable upon resignation, retirement, or death.

10. Accrued Liabilities

These accounts consist of accrued expenses, wages, and employee benefits.

11. Restricted Assets

As stated in Note 4 – Pension Plans, in the Notes to the Financial Statements, certain assets associated with the plans give rise to restrictions on the Commission’s net position due to enabling legislation. The restricted net position due to pension assets (net of associated deferred inflows of resources and deferred outflows of resources for the year ended March 31, 2024, was \$781,771.

Restricted Net Position Related to Pension Asset

Pers 2/3 Only

Pension Asset	\$	583,611
Plus Deferred Outflows	\$	505,121
Less Deferred Inflows	\$	(306,962)
Total Restricted Net Position	\$	781,771

NOTE 2 - DEPOSITS AND INVESTMENTS

As required by state law, all deposits and investments of the Commission are obligations of the U.S. Government or deposits with Washington State banks and savings and loan institutions.

The Commission’s deposits and certificates of deposit are entirely covered by federal depository insurance (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protections Commission (PDPC).

The Commission is a voluntary participant in the Local Government Investment Pool (LGIP), an external investment pool operated by the Washington State Treasurer. The pool

is not rated and not registered with the SEC. Rather; oversight is provided by the State Finance Committee in accordance with RCW 43.250. Investments in the LGIP are reported at amortized costs, which is the same as the value of the pool per share. The LGIP does not impose any restrictions on participants withdrawal. The Commission deposited funds into the Local Government Investment Pool (LGIP) and in FY24 reported a balance of \$54,762.

The Commission's bank balances for the fiscal year-end 2024 was \$3,858,955; the book balance was \$3,658,074 with a difference of \$200,881, due to outstanding checks and deposits.

The Commission's investments are categorized to give an indication of the risk assumed at year-end. Investments are insured, registered, or held by the Commission or its agent in the Commission's name.

GASB Codification Section 3100, Fair Value Measurement, establishes the following hierarchy that prioritizes the input used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities as of the reporting date.
- Level 2: Observable inputs other than Level 1 prices which are either directly or indirectly observable as of the reporting date.
- Level 3: Unobservable inputs supported by little or no market activity.

As of March 31, 2024, the Commission had no investments that meet the GASB criteria for measurement at fair value.

The following table shows the Commission's investments at year-end.

Investment Type	3/31/23 Carrying	3/31/23 Market	3/31/24 Carrying	3/31/24 Market
Cert. of Deposits	\$ 2,561,715	\$ 2,561,715	\$ 2,151,058	\$ 2,151,058

NOTE 3-CAPITAL ASSETS, AMORTIZATION, AND DEPRECIATION

A. General Policies

All capital assets in excess of \$3,000 are capitalized and depreciated. Maintenance, repairs, and minor renewals are accounted for as expenditures or expenses when incurred.

B. Proprietary Fund Capital Assets

The Commission's investment in capital assets as of March 31, 2024, amounts to \$1,134,153(net of accumulated amortization and depreciation). This is a decrease of \$33,550, from capital assets consisting of \$1,167,703 (net of accumulated depreciation) on March 31, 2023.

Capital assets of proprietary funds are capitalized in their respective balance sheets and are recognized at historical cost or estimated historical cost when purchased or constructed.

Capital assets of proprietary funds are depreciated using the straight-line method over the useful life of the asset as follows:

Description	Years
Computers	4
Vehicles & Equipment	5
Improvements	15
Building	50

SUMMARY OF CHANGES IN CAPITAL ASSETS, AMORTIZATION, AND DEPRECIATION:

Business Type Activities	Balance 3/31/22	Increase	Decrease	Balance 3/31/23	Increase	Decrease	Balance 3/31/24

NOTE 4 - PENSION PLANS

The following table represents the aggregate pension amounts for all plans for the year ended March 31, 2024:

Aggregate Pension Amounts - All Plans	
Pension liabilities	\$ (252,173)
Pension assets	\$ 583,611
Deferred outflows of resources	\$ 555,771
Deferred inflows of resources	\$ (335,408)
Pension expense/expenditures	\$ (101,229)

State Sponsored Pension Plans

Substantially all Commission full-time and qualifying part-time employees participate in one of the following statewide retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing, multiple-employer public employee defined benefit and defined contribution retirement plans. The State Legislature establishes, and amends, laws pertaining to the creation and administration of all public retirement systems.

The Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available annual comprehensive financial report (ACFR) that includes financial statements and required supplementary information for each plan.

The DRS ACFR may be downloaded from the DRS website at www.drs.wa.gov

Public Employees' Retirement System (PERS)

PERS members include elected officials; state employees; employees of local governments; and higher education employees not participating in higher education retirement programs.

PERS is composed of and reported as three separate plans for accounting purposes: Plan 1, Plan 2/3 and Plan 3. Plan 1 accounts for the defined benefits of Plan 1 members. Plan 2/3 accounts for the defined benefits of Plan 2 members and the defined benefit portion of benefits for Plan 3 members. Plan 3 accounts for the defined contribution portion of benefits for Plan 3 members. Although employees can be a member of only Plan 2 or Plan 3, the defined benefits of Plan 2 and Plan 3 are accounted for in the same pension trust fund. All assets of Plan 2/3 may legally be used to pay the defined benefits of any Plan 2 or Plan 3 members or beneficiaries.

PERS Plan 1 provides retirement, disability, and death benefits. Retirement benefits are determined as 2% of the member's average final compensation (AFC) times the member's years of service. The AFC is the average of the members' 24 highest consecutive service

months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of service, or at age 60 with at least five years of service. PERS Plan 1 retirement benefits are actuarially reduced if a survivor benefit is chosen. Members retiring from active status prior to the age of 65 may also receive actuarially reduced benefits. Other benefits include an optional cost-of-living adjustment (COLA). PERS 1 members were vested after the completion of five years of eligible service. The plan was closed to new entrants on September 30, 1977.

Contributions

The **PERS Plan 1** member contribution rate is established by State statute at 6%. The employer contribution rate is developed by the Office of the State Actuary, adopted by the Pension Funding Council and is subject to change by the legislature. The PERS Plan 1 required contribution rates (expressed as a percentage of covered payroll) for the fiscal year ended March 31, 2024, were as follows:

PERS Plan 1				
Actual Contribution Rates:	Employer			Employee
	4/1/23 to 6/30/23	7/1/23 to 8/31/23	9/1/23 to 3/31/24	
PERS Plan 1	6.36%	6.36%	6.36%	6.00%
PERS Plan 1 UAAL	3.85%	2.85%	2.97%	
Administrative Fee	0.18%	0.18%	0.20%	
Total	10.39%	9.39%	9.53%	6.00%

PERS Plan 2/3 provides retirement, disability, and death benefits. Retirement benefits are determined as 2% of the member's AFC times the member's years of service for Plan 2 and 1% of AFC for Plan 3. The AFC is the average of the member's 60 highest-paid consecutive service months. Members are eligible for retirement with a full benefit at 65 with at least five years of service credit. Retirement before age 65 is considered early retirement. PERS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older, are eligible for early retirement with a benefit that is reduced by a factor that varies according to age for each year before age 65. PERS Plan 2/3 retirement benefits are actuarially reduced if a survivor benefit is chosen. Other PERS Plan 2/3 benefits include a COLA based on the CPI, capped at 3% annually. PERS 2 members are vested after completing five years of eligible service. Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44.

PERS Plan 3 defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. Members are eligible to withdraw their defined contributions upon separation. Members have multiple withdrawal options,

including purchase of an annuity. PERS Plan 3 members are immediately vested in the defined contribution portion of their plan.

Contributions

The PERS Plan 2/3 employer and employee contribution rates are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. The rates are adopted by the Pension Funding Council and are subject to change by the Legislature. The employer rate includes a component to address the PERS Plan 1 Unfunded Actuarial Accrued Liability (UAAL).

As established by Chapter 41.34 RCW, Plan 3 defined contribution rates are set at a minimum of 5% and a maximum of 15%. PERS Plan 3 members choose their contribution rate from six options when joining membership and can change rates only when changing employers. Employers do not contribute to the defined contribution benefits.

The PERS Plan 2/3 defined benefit required contribution rates (expressed as a percentage of covered payroll) for the year ended March 31, 2024, were as follows:

PERS Plan 2/3				
Actual Contribution Rates:	Employer			Employee
	4/1/23 to 6/30/23	7/1/23 to 8/31/23	9/1/23 to 3/31/24	
PERS Plan 2/3	6.36%	6.36%	6.36%	6.36%
PERS Plan 1 UAAL	3.85%	2.85%	2.97%	
Administrative Fee	0.18%	0.18%	0.20%	
Total	10.39%	9.39%	9.53%	6.36%

The Commission's actual PERS plan contributions were \$70,000 to PERS Plan 1 and \$140,301 to PERS Plan 2/3 for the year ending March 31, 2024. PERS Plan 1 contributions include \$70,000 of PERS Plan 1 UAAL contributions related to PERS Plan 2/3 participation.

Actuarial Assumptions

The total pension liability (TPL) for each of the DRS plans was determined using the most recent actuarial valuation completed in 2023 with a valuation date of June 30, 2022. The actuarial assumptions used in the valuation were based on the results of the Office of the State Actuary's (OSA) *2013-2018 Demographic Experience Study Report* and the *2021 Economic Experience Study*.

Additional assumptions for subsequent events and law changes are current as of the 2022 actuarial valuation report. The TPL was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2023. Plan liabilities were rolled forward from June 30,

2022, to June 30, 2023, reflecting each plan's normal cost (using the entry-age cost method), assumed interest and actual benefit payments.

- **Inflation:** 2.75% total economic inflation; 3.25% salary inflation
- **Salary increases:** In addition to the base 3.25% salary inflation assumption, salaries are also expected to grow by promotions and longevity.
- **Investment rate of return:** 7.0%

Mortality rates were developed using the Society of Actuaries' Pub. H-2010 mortality rate as the base table. OSA applied age offsets to better tailor the mortality rates to the demographics of each plan. OSA applied the long-term MP-2017 generational improvement scale, also developed by the Society of Actuaries, to project mortality rates for every year after the 2010 base table. Mortality rates are applied on a generational basis; meaning, each member is assumed to receive additional mortality improvements in each future year throughout their lifetime. Under "generational" mortality, a member is assumed to receive additional mortality improvements in each future year, throughout their lifetime

Since the last valuation, there were no OSA method changes, however OSA adjusted TRS Plan1 assets, LEOFF Plan 1/2 assets, and LEOFF participant data to reflect certain material changes occurring after June 30, 2022, measurement date.

Discount Rate

The discount rate used to measure the total pension liability for all DRS plans was 7.0 percent.

To determine that rate, an asset sufficiency test was completed to test whether each pension plan's fiduciary net position was sufficient to make all projected future benefit payments for current plan members. Based on assumptions described in OSA's certification letter within the DRS ACFR, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.00% was used to determine the total liability.

Long-Term Expected Rate of Return

The long-term expected rate of return on the DRS pension plan investments of 7.0 percent was determined using a building-block-method. In selecting this assumption, the Office of the State Actuary (OSA) reviewed the historical experience data, considered the historical conditions that produced past annual investment returns, and considered capital market assumptions and simulated expected investment returns provided by the Washington State Investment Board (WSIB). The WSIB uses capital market assumptions and their target asset allocation to simulate future investment returns at various future times.

Estimated Rates of Return by Asset Class

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2023, are summarized in the table below. The inflation component used to create the table is 2.2 percent and represents the WSIB's most recent long-term estimate of broad economic inflation.

Asset Class	Target Allocation	% Long-Term Expected Real Rate of Return Arithmetic
Fixed Income	20.00%	1.50%
Tangible Assets	7.00%	4.70%
Real Estate	18.00%	5.40%
Global Equity	32.00%	5.90%
Private Equity	23.00%	8.90%
	100.00%	

Sensitivity of Net Pension Liability/(Asset)

The table below presents the Commission's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.0 percent) or 1-percentage point higher (8.0 percent) than the current rate.

Plan	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
PERS 1	\$ 352,305	\$ 252,173	\$ 164,782
PERS 2/3	\$ 634,747	\$ (583,611)	\$ (1,584,570)

Pension Plan Fiduciary Net Position

Detailed information about the State's pension plans' fiduciary net position is available in the separately issued DRS financial report.

Pension Liabilities (Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

As of March 31, 2024, the Commission reported its proportionate share of the net pension liabilities/(assets) as follows:

Plan	2024
PERS 1 Liability	\$ 252,173
PERS 2/3 (Asset)	\$ (583,611)
Total Pension Liability	\$ 252,173
Total Pension (Asset)	\$ (583,611)

As of March 31, 2024, the Commission's proportionate share of the collective net pension liabilities was as follows:

Plan	Proportionate Share 3/31/23	Proportionate Share 3/31/24	Change in Proportion
PERS 1	0.011679%	0.011047%	(0.000632%)
PERS 2/3	0.015245%	0.014239%	(0.001006%)

Employer contribution transmittals received and processed by DRS for the fiscal year ended June 30, 2023, are used as the basis for determining each employer's proportionate share of the collective pension amounts reported by DRS in the *Schedules of Employer and Nonemployer Allocations*.

Pension Expense

For the year ended March 31, 2024, the Commission recognized pension expense/(benefit) as follows:

Plan	2024
PERS 1 Pension (Benefit) Expense	\$ (23,181)
PERS 2/3 Pension (Benefit)Expense	\$ (78,048)
Total Pension (Benefit)Expense	\$ (101,229)

Deferred Outflows of Resources and Deferred Inflows of Resources

As of March 31, 2024, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	PERS 1	PERS 2/3	PERS 1	PERS 2/3
Differences between expected and actual experience	\$ -	\$ 118,881	\$ -	\$ 6,521
Net difference between projected and actual investment earnings on pension plan investments	\$ -	\$ -	\$ 28,446	\$ 219,940
Changes of assumptions	\$ -	\$ 245,020	\$ -	\$ 53,405
Changes in proportion and differences between contributions and proportionate share of contributions	\$ -	\$ 32,884	\$ -	\$ 27,096
Contributions subsequent to the measurement date	\$ 50,650	\$ 108,336	\$ -	\$ -
TOTAL	\$50,650	\$ 505,121	\$ 28,446	\$ 306,962

Deferred outflows of resources related to pensions resulting from the Commission's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended March 31, 2025. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended March 31:	PERS 1	PERS 2/3
2025	\$ (19,354)	\$ (111,970)
2026	\$ (24,339)	\$ (129,170)
2027	\$ 15,007	\$ 186,029
2028	\$ 240	\$ 69,504
2029	\$ -	\$ 68,451
Thereafter	\$ -	\$ 6,980
TOTAL	\$ (28,446)	\$ 89,824

NOTE 5 – OTHER POST EMPLOYMENT BENEFIT (OPEB) PLANS

The following table represents the aggregate OPEB amounts for all plans subject to the requirements of GASB 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for the year ended March 31, 2024:

Aggregate OPEB Amounts	
OPEB liabilities	\$ 1,171,189
OPEB assets	\$ -
OPEB deferred outflows of resources	\$ 32,508
OPEB (benefit) expense	\$ (179,701)

The Commission, through the Health Care Authority (HCA) administers a single-employer defined benefit other postemployment benefit (OPEB) plan.

OPEB Plan Description

Per Revised Code of Washington 41.05.065, the Public Employees Benefits Board (PEBB) created under the HCA is authorized to design benefits and determine the terms and conditions of employee and retired employee participation and coverage, including establishment of eligibility criteria for both active and retired employees. Benefits purchased by PEBB include medical, dental, life, and long-term disability.

The relationship between the PEBB OPEB plan, the Commission, its employees, and retirees are not formalized in a contract or plan document. Rather, the benefits are provided in accordance with a substantive plan. A substantive plan is one in which the plan terms are understood by the employers and plan members. This understanding is based on communications between the HCA, employers and plan members, and the historical pattern of practice with regard to sharing of benefit costs. The understanding by the employer and plan members is that there is no contractual obligation to continue the substantive plan as an employee benefit on an ongoing basis. Nevertheless, the actuarial assumption used in valuations presented in this footnote assumes that the substantive plan will be carried forward into the future.

Employers participating in the PEBB plan include the state (which includes general government agencies and higher education institutions), and political subdivisions. Additionally, the PEBB plan is available to the retirees of the Commission. RCW 41.05.085 provides that contribution requirements of participating employers and of plan members are established by and may be amended by the HCA Board of Directors. Participating employers and active plan members are required to contribute to the established benefit rates.

Eligibility

Commission members are eligible for retiree medical benefits after becoming eligible for service retirement pension benefits (either reduced or full pension benefits) under Plan 1, 2 or 3 (see Note 4):

- Age 60 with 5 years of service
- Age 55 with 25 years of service for Plan 2,3

Former members who are entitled to a deferred vested pension benefit are not eligible to receive medical and life insurance benefits after pension benefit commencement. Survivors of covered members who die are eligible for medical benefits.

Medical Benefits

Upon retirement, members are permitted to receive medical benefits. Retirees pay the following monthly rates for pre-65 medical coverage for 2024:

Non-Medicare medical plan premiums										
	Kaiser Foundation Health Plan of the Northwest		Kaiser Foundation Health Plan of Washington				Uniform Medical Plan			
	Classic	CDHP	Classic	CDHP	SoundChoice	Value	Classic	CDHP	Select	UMP Plus
Monthly premiums										
Subscriber	\$ 1,039	\$ 908	\$ 934	\$ 739	\$ 777	\$ 919	\$ 832	\$ 748	\$ 767	\$ 817
Subscriber & spouse	\$ 2,072	\$ 1,808	\$ 1,861	\$ 1,471	\$ 1,549	\$ 1,833	\$ 1,657	\$ 1,488	\$ 1,527	\$ 1,627
Subscriber & children	\$ 1,814	\$ 1,598	\$ 1,629	\$ 1,302	\$ 1,356	\$ 1,604	\$ 1,451	\$ 1,318	\$ 1,337	\$ 1,424
Subscriber, spouse, & children	\$ 2,847	\$ 2,440	\$ 2,557	\$ 1,976	\$ 2,127	\$ 2,518	\$ 2,277	\$ 2,000	\$ 2,098	\$ 2,235

Note: These premiums do not include your Medicare Part B premium.

The term spouse is interchangeable with state-registered domestic partner (SRDP).

If a UnitedHealthcare/Medicare plan is selected, non-Medicare eligible members are enrolled in UMP Classic. The rates shown reflect the total due, including premiums for both plans.

Kaiser Foundation Health Plan of the Northwest (Kaiser Permanente NW) offers plans in Clark and Cowlitz counties in Washington and select counties and zip codes in Oregon.

Kaiser Permanente NW Medicare plans have a larger service area.

Administered by Regence BlueShield and Washington State RX Services.

The implicit rate subsidy is the difference between the total cost of pre-65 medical benefits for retirees and pre-65 contributions paid by retirees. Per member health costs vary depending on age, number of dependents and expected morbidity.

Retirees who are enrolled in Medicare Parts A and B receive an explicit rate subsidy in the form of reduced premiums on Medicare supplemental plans.

As of March 31, 2024, the following employees were covered by the benefit terms:

Employees Covered by Benefit Terms	
Inactive employees or beneficiaries currently receiving benefits	13
Inactive employees entitled to but not yet receiving benefits	*
Active employees	22
Total	35

* It is not possible to determine the number of employees entitled to but not yet receiving benefit payments. Retiring employees apply for benefits at their discretion, may be otherwise working and not eligible for benefits or be deceased. This data is not monitored by the Commission, Health Care Authority, or the state of Washington.

The plan is funded on a pay-as-you-go basis and there are no assets accumulated in a qualifying trust.

Assumptions and other Inputs

The Commission uses the alternative measurement method (AMM) in determining its total OPEB liability. The AAM is accomplished by utilizing the AMM Online Tool provided by

the Washington State Office of the State Actuary (OSA). The OSA relied on its OPEB Actuarial Valuation for the State's June 30, 2023, Fiscal Year-End report for the purpose of developing the AMM Online Tool.

The total OPEB liability was determined using the following methodologies: actuarial valuation date was June 30, 2023, and the measurement date was June 30, 2023. The actuarial cost method was Early Age. The amortization method used immediate recognition.

Projections of benefits for financial reporting purposes are based on the terms of the substantive plan the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members (active employees and retirees) to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

The total OPEB liability was determined using the following actuarial assumptions, applied to all period included in the measurement, unless otherwise specified. The inflation rate was 2.35% and the projected salary change was 3.5% plus service-based salary increases. Health care trend rates assumptions vary slightly by medical plan. The initial rate ranges from 2-16%, reaching an ultimate rate of approximately 3.8% in 2075. The post-retirement participation rate is 60% and the percentage with spouse coverage is 45%

Mortality rates were based on the PubG.H-2010 (General) Table. The Office of the State Actuary applied offsets to the base table and mortality improvements are according to MP-2017 long-term rates. Mortality rates are applied on a generational basis, meaning members are assumed to receive additional mortality improvements in each future year throughout their lifetime.

The discount rate used to measure the total OPEB liability was 3.54% at the beginning of the measurement year and 3.65% at the end of the measurement year.

Specific assumptions made by the Office of the State Actuary to develop the AMM Online Tool that vary from those described above are: 3/4 of members select a UMP plan and 1/4 select a Kaiser Permanente (KP) plan, UMP pre- and post-Medicare costs and premiums are equal to the Uniform Medical Plan, the Kaiser Permanente pre-Medicare costs and premiums are a 60/40 blend of KP Classic and KP Value, the Kaiser Permanente post-Medicare costs and premiums are equal to KP Medicare. The estimated retirement service for each active cohort is based on the average entry age of 35. Assumptions for retirement, disability, termination, and mortality are consistent with the most recent PEBB OPEB valuation. Each cohort is assumed to be a 50/50 male/female split and eligible spouses are the same age as the primary member. The age-based cohorts were based on the overall distribution of Washington State employees and retirees that participate in PEBB. Dental benefits are not included when calculating the total OPEB liability.

The following presents the total OPEB Liability calculated using the current healthcare cost trend rate (HCTR), as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1.0 percentage point lower or 1.0 percentage point higher than the current rate.

	1.0% Decrease	Current HCTR	1.0% Increase
2024 OPEB Liability	\$ 1,009,553	\$ 1,171,189	\$ 1,371,695

The following presents the total OPEB liability calculated using the discount rate (DR), as well as what the OPEB liability would be if it were calculated using a discount rate that is 1.0 percentage point lower or 1.0 percentage point higher than the current rate.

	1.0% Decrease	Current DR	1.0% Increase
2024 OPEB Liability	\$ 1,352,410	\$ 1,171,189	\$ 1,023,735

Changes in the Total OPEB liability

Total OPEB Liability at July 1	\$ 1,398,266
Service cost	\$ 33,636
Interest	\$ 49,858
Changes of benefit terms	\$ -
Changes in experience data and assumptions	\$ (263,195)
Benefit payments	\$ (47,376)
Other charges	\$ -
Total OPEB Liability at June 30	\$ 1,171,189

There were no significant changes of assumptions or other inputs that affect measurement of the total OPEB liability since the prior measurement date. There were no significant changes to benefit terms that affected measurement of the total OPEB liability since the prior measurement date. There were no benefit payments in the measurement period attributable to the purchase of allocated insurance contracts.

The Commission's reporting date is March 31, 2024. The OPEB liability valuation and measurement dates are June 30, 2023. As of March 31, 2023, the Commission had actuarially determined payments subsequent to the measurement date of \$32,508. Such subsequent payments are recorded as deferred outflows of resources. Accordingly, the Commission has recognized deferred outflows of resources related to OPEB of \$32,508. The deferred outflows of resources resulting from payments subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended March 31, 2025.

For further information on the results of the HCA Actuarial Valuation of the employer-provided subsidies associated with the state's PEBB plan, refer to:

<http://leg.wa.gov/osa/additionalservices/Pages/OPEB.aspx>. The plan does not issue a separate report; however, additional information is included in the State of Washington's CAFR, which is available at: <http://www.ofm.wa.gov/cafr/default.asp>.

NOTE 6 – LEASE LIABILITY

The Commission leases a mail machine from Pitney Bowes. As such, the Commission recorded a right to use asset valued at \$11,238 and a beginning lease liability of \$11,238 related to the lease. The Commission assumed a borrowing rate of 3.0% when determining the right to use asset and lease liability.

During FY24, the Commission recorded activity relating to the leases as shown below. Also, during FY24, the Commission recorded \$2,248 and \$302 of net amortization and interest expense, respectively.

Lease/Term	Lease Balance 3/31/22	Increase	Decrease	Lease Balance 3/31/23	Increase	Decrease	Lease Balance 3/31/24
Pitney Bowes/2023-2028	\$ -	\$ 11,238	\$ 201	\$ 11,036	\$ -	\$ 2,115	\$ 8,921
Total	\$ -	\$ 11,238	\$ 201	\$ 11,036	\$ -	\$ 2,115	\$ 8,921

As of March 31, 2024, the principal and interest requirements to maturity are as follows:

Year ended			
March 31	Principal	Interest	Total
2025	\$ 2,179	\$ 238	\$ 2,417
2026	\$ 2,245	\$ 172	\$ 2,417
2027	\$ 2,314	\$ 103	\$ 2,417
2028	\$ 2,183	\$ 33	\$ 2,216
Thereafter	\$ -	\$ -	\$ -
Total	\$ 8,921	\$ 546	\$ 9,467

NOTE 7 – DEFERRED COMPENSATION PLAN

457 Plan – Deferred Compensation Plan

Commission employees have the option of participating in an IRC, Section 457, and deferred compensation plan administered by the state retirement system. The plan assets and all related income are held in trust for the exclusive benefit of the participants and their beneficiaries.

NOTE 8 – CONTINGENCIES AND LITIGATION

The Commission has recorded in its financial statements all material liabilities.

NOTE 9 – RISKS

Although risk can never be eliminated, the Washington State Fruit Commission makes every effort to minimize risks by implementing internal controls and procedures, segregating duties, and procuring adequate insurance coverage.

The Washington State Fruit Commission maintains applicable insurance coverage through a self-procured insured policy obtained through Conover Insurance, an auto policy through the Washington State Department of Enterprise Services (DES), and a policy obtained through the Washington State Liability Self Insurance Program.

The Washington State Self-Insurance policy provides coverage up to \$10 million with no deductible for general and auto liability while the self-procured policy through Conover Insurance, Inc. provides coverage up to \$2 million aggregate for general liability with a \$1 million per occurrence general liability with a \$3 million umbrella that extends over the general liability. The State DES Commercial policy for automobiles has a \$1,000 deductible.

Further, the Washington State Fruit Commission, per RCW 15.28.190, obtains up to \$50,000 in coverage for the State Public Officials Bond and also up to \$10 million in coverage for crime coverage.

As stated in RCW 15.28.250, for the purpose of securing collection of soft fruit assessments, the Washington State Department of Agriculture shall cease to provide inspection services under Chapter 15.17 RCW to any delinquent party until that party pays all delinquent assessments, interest, and penalties.

NOTE 9 – OTHER DISCLOSURES

The Pacific Northwest Canned Pear Service (PNCPS), a non-profit organization established in Washington State in February 1998, was organized exclusively for the promotion and marketing of canned pears grown and/or processed in Oregon or Washington. The Commission is not financially accountable for PNCPS.

From time to time the Commission acts as a clearinghouse for assessments made on industry members under the Washington Tree Fruit Research Commission, a state agency, and the Processed Pear Committee, and Cherry Marketing Committee, both USDA federal entities operating under marketing orders under #927 and #923 respectively. When the Commission receives assessments in this manner, it records Industry Assessment Revenue. When disbursed, funds are recorded as Industry Expense. Both are considered non-operating.

REQUIRED SUPPLEMENTARY INFORMATION

Schedule of Proportionate Share of the Net Pension Liability as of a Measurement Date of June 30

	PERS 1

Notes to Required Supplementary Information (RSI) Related to Pensions

There were no changes in benefit terms or changes in size or composition of the population covered by the benefit terms that significantly affected trends in the pension related amounts reported in RSI, however, investment returns and other assumptions varied from the preceding year. As such, the employer's share of pension liabilities decreased in the current year. For the PERS 2/3 plan, similar differences in assumptions from the prior year resulted in an increased pension asset. Note that even with no PERS 1 participants, PERS 1 UAAL contributions are required with respect to PERS 2/3 participants.

REQUIRED SUPPLEMENTARY INFORMATION

Schedule of Changes in OPEB Liability And Related Ratios Information is Available for Years Ended March 31

	<u>2024</u>	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>2020</u>	<u>2019</u>

WASHINGTON STATE FRUIT COMMISSION
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
(AND STATE/LOCAL FINANCIAL ASSISTANCE)
For year ended March 31, 2024

NOTE 1 – BASIS OF ACCOUNTING

This schedule is prepared on the same basis of accounting as the commission's financial statements. The Commission uses the accrual basis of accounting.

NOTE 2 – PROGRAM COSTS

The amounts shown as current year expenditures represent only the federal grant portion of the program costs. Entire program costs, including the Commission's portion, may be more than shown.

NOTE 3 – INDIRECT COST RATE

The Commission has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

ABOUT THE STATE AUDITOR'S OFFICE

The State Auditor's Office is established in the Washington State Constitution and is part of the executive branch of state government. The State Auditor is elected by the people of Washington and serves four-year terms.

We work with state agencies, local governments and the public to achieve our vision of increasing trust in government by helping governments work better and deliver higher value.

In fulfilling our mission to provide citizens with independent and transparent examinations of how state and local governments use public funds, we hold ourselves to those same standards by continually improving our audit quality and operational efficiency, and by developing highly engaged and committed employees.

As an agency, the State Auditor's Office has the independence necessary to objectively perform audits, attestation engagements and investigations. Our work is designed to comply with professional standards as well as to satisfy the requirements of federal, state and local laws. The Office also has an extensive quality control program and undergoes regular external peer review to ensure our work meets the highest possible standards of accuracy, objectivity and clarity.

Our audits look at financial information and compliance with federal, state and local laws for all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits and cybersecurity audits of state agencies and local governments, as well as state whistleblower, fraud and citizen hotline investigations.

The results of our work are available to everyone through the more than 2,000 reports we publish each year on our website, www.sao.wa.gov. Additionally, we share regular news and other information via an email subscription service and social media channels.

We take our role as partners in accountability seriously. The Office provides training and technical assistance to governments both directly and through partnerships with other governmental support organizations.
